Sixth Street Construction

July 19, 2013 – Beginning the week of July 28, 2013, Sixth Street, between Liberty Avenue and Maple Avenue will be under construction. The project will include spot curb and gutter repairs, over twenty manhole adjustments, new storm structure, milling, a new asphalt surface, and new striping. The project is expected to last one month. Although Sixth Street will be open to traffic throughout the length of construction, it is suggested that the public use alternative routes to help expedite the project. An official detour route will not be posted. As always, drivers are advised to use caution when traveling throughout the construction zone.
