FIRE HYDRANT FLUSHING

The City of Beloit Water Resources Division will be performing their annual fire hydrant flushing program from July 21, 2014 through November 26, 2014.

This flushing program ensures that the fire hydrants are in good working condition in case of emergencies and to help flush sediment out of the distribution system.

*You may experience discolored water, low water pressure or a disruption of service during this time period. Residents are urged to reduce water use and consumption during this time period and wait to do laundry until **AFTER** 6:00 p.m. during the flushing program.*

During evening hours residents should open their cold water faucets until the water runs clear before using it.

THE WATER IS SAFE TO DRINK DURING THIS TIME PERIOD.
