Storm Sewer Work Starts Wednesday on Willowbrook Road

May 29, 2018 - Work crews are re-laying a storm sewer line on Willowbrook Road near the south end of the wastewater treatment plant beginning Wednesday, May 30.

Traffic will be reduced to one lane during the project with work crews flagging traffic through the work zone while actively replacing approximately 50 feet of pipe. The work zone will remain as one lane until the concrete in the first two lanes is ready for traffic. Stop signs will be located at each end of the work zone to allow traffic to move through one vehicle at a time.

The lane reduction is expected to last approximately one week depending on the weather.
