

**Cranston Road Corridor Study
Public Involvement Meeting
Monday, November 12, 2018, from 4:00 to 6:00 p.m. (brief presentation around 5:15 p.m.)
City of Beloit Department of Public Works, Utilities and Engineering Facility
2400 Springbrook Court, Beloit, Wisconsin**

You are invited to attend a Public Involvement Meeting (PIM) for the Cranston Road Corridor Study. The corridor study will cover approximately 1-mile on Cranston Road between Shopiere Road and Milwaukee Road.

The purpose of this study is to develop a long-range plan that will balance current and future traffic safety and traffic mobility (i.e. traffic flow) needs along Cranston Road. The study will involve evaluating existing roadway conditions, analyzing conceptual roadway improvements for safety and mobility, identifying existing and future-year deficiencies and concerns, and investigating opportunities to improve bicycle and pedestrian accommodations. This study will provide a Traffic Impact Study (TIS) report that will document traffic volumes, roadway features, crash data, evaluate operational deficiencies, and identify conceptual improvements to mitigate potential deficiencies.

Any recommended access modifications, construction projects and/or right of way needs will be evaluated at a future date. The next steps are to review public feedback from the PIM and develop/submit a TIS report in early 2019.

If you are unable to attend the meeting but have questions or comments, please contact City of Beloit-Engineering Division at 2400 Springbrook Court, Beloit, WI 53511, e-mail: cranston@beloitwi.gov, phone (608) 364-6690. E-mail will be active until 5:00 PM on Friday, November 30th.

Si necesita un intérprete, un traductor, materiales en formatos alternativos u otros arreglos para acceder a este servicio, actividad o programa, comuníquese inmediatamente al número (608) 364-6690.
