Hydrant Flushing Program Begins July 22

July 15, 2019 - The City of Beloit Water Resources Division will perform their annual fire hydrant flushing program from July 22, 2019, through Nov. 30, 2019, between 7:30 a.m. and 6 p.m., Monday through Friday.

This flushing program ensures that the fire hydrants are in good working condition in case of emergencies and helps flush sediment out of the distribution system.

Residents may experience discolored water, low water pressure or a disruption of service during this time period. Residents are urged to reduce water use and consumption during this time period and wait to do laundry until **AFTER** 6 p.m. when crews are in the area during the flushing program.

Following the hydrant flushing, residents should open their cold water faucets during evening hours until the water runs clear before using it.

THE WATER IS SAFE TO DRINK DURING THIS TIME PERIOD.
