Electric Scooters Coming to the City of Beloit

Beginning Friday, July 30th, Bird Company will bring e-scooters to Beloit. The company mission is to make cities more livable by reducing car usage, traffic, and congestion. Please do not ride the scooters on the sidewalk.

How does this work?

The user will install the Bird app, on which are displayed all available scooters nearby. Before starting a trip, the user must supply payment information, scan the QR code on the scooter, and begin the trip. At the end of the trip, the user must take a photo of the parked scooter to end the ride. The price of the trip is immediately withdrawn from the user's credit card.
