Beloit Public Library Board of Directors Announce Selection of Nathan Deprey as Library Director

FOR IMMEDIATE RELEASE

Beloit, Wis. -- The Beloit Public Library Board of Directors is pleased to announce the selection of Nathan Deprey as the new director of the Beloit Public Library. Mr. Deprey succeeds Kristi Howe who resigned as of January 25, 2013; he will start on June 10, 2013.

Most recently, Mr. Deprey was the director of the Osceola Public Library in Osceola, Wis. where he increased circulation and program attendance by more than 100 percent, developed early literacy programs and helped guide the Friends of the Library group through a 501(c)3 certification. A true believer of collaborative efforts, Mr. Deprey developed and managed library outreach efforts, organized a home energy expo increasing sustainability issues and developed a library expansion plan with the library board.

A graduate of University of Wisconsin-Green Bay, Mr. Deprey earned a bachelor's degree in English-Creative Writing and a Master of Library and Information Science degree from the Graduate School of Library and Information Science at University of Wisconsin-Milwaukee.

"Nathan Deprey will be a fantastic addition to our Library, bringing energy, creativity and passion for the profession," says Beloit Public Library Board President Doreen Dalman.

The selection of Mr. Deprey concludes a three-month search conducted with the collaboration of Lynn Elam Consulting in Batavia, Ill. and several rounds of interviews conducted by a special selection committee.

"The board looks forward to working with Mr. Deprey to make our library an even more valuable addition to the Greater Beloit community," added Dalman.

Annual Prescribed Burns in Beloit Parks

May 2, 2013 – Beloit, WI: The City of Beloit Parks & Leisure Services Division will conduct their annual Prescribed Burn program in designated park sites during the two (2) weeks of May 2-17, 2013, depending upon weather conditions.

Historically, natural wildfires played a very important role in shaping the natural prairie grassland that once covered over two million acres of Wisconsin. Today, less than 12,000 scattered acres still exist, and the use of Prescribed Burning Programs helps protect and maintain these natural prairie grassland areas.

The purpose of prescribed burns is multi-faceted and provides the following benefits:

- Reduces the amount of dead and dying plant material that hinders new plant growth in the spring.
- Recycles nutrients from old plant growth for use by growing plants.
- Promotes germination, growth, and flowering of native plants.
- Increases the diversity of native plant life.
- Controls encroachment of woody brush and trees into grasslands, including invasive species such as garlic mustard.

Prescribed Burn areas are generally conducted in the spring after snow melt and/or in the fall after leaf fall has concluded. These designated sites are typically burned on a 2-5 year interval, and in some cases annually to prevent overgrowth of a defined area.

This year, the Parks Division will only conduct prescribed burns in the following designated locations:

- Harper's Prairie (aka West Side Detention Pond), located at 2201 Whipple Street.
- Stateline Restoration Prairie, located at 540 Colby Street.
- Big Hill Park, located at 1101 Big Hill Road.

Consistent with practices as developed and conducted by the Wisconsin DNR and the US Fish and Wildlife Service, each park site is appropriately supervised and monitored by trained staff or volunteers from the City's Parks Division. These prescribed burns will only be conducted under the appropriate weather conditions, as safety is the top concern in implementation of this practiced program. If weather conditions are not appropriate for these prescribed burns, they will be postponed until a later date when the weather conditions are considered acceptable for this practice.

[Return to page 1](#)

Additional information regarding these prescribed burns may be obtained by calling the Parks & Leisure Services Administrative Office at (608) 364-2929.
